RE: Annual report regarding CAF II Census Blocks

Dear Ms. Walker:

Pursuant to Decision 18-12-018, AT&T California (U-1001-C) (AT&T) hereby submits this report to the California Public Utilities Commission (CPUC) regarding its broadband deployment in specified census blocks in Connect America Fund (CAF) areas.

The Federal Communications Commission (FCC) requires providers that accepted CAF funds to complete deployment by December 31, 2020, with 40% by year-end 2017, 60% in 2018, and 80% in 2019. AT&T is on track with its deployment.

AT&T is providing the Commission with a list of CAF census blocks where it has accepted funds. The data shows where AT&T has deployed broadband of 10 Mbps down and 1 Mbps up or better in CAF accepted census blocks as of June 30, 2018.

At this time, AT&T has not elected any census blocks it will not build to nor has it determined final plans for all the census blocks it will build to.

AT&T

All communication providers certificated and/or registered with the CPUC, including AT&T, that also file Forms 477 with the FCC are expected to submit copies of their data for December 2018 on or before April 1st.

Please contact Ross Johnson with any questions.
