Re: Challenge to Digital Path, Inc. d/b/a DigitalPath, Inc.
CASF Grant Application Title: Lake County Project

Dear Mr. Osborne:

MCC Telephony of California, LLC (“Mediacom”) hereby challenges the Digital Path Inc. CASF Grant Application entitled “Lake County” for the following reasons:

1. Mediacom already provides high-speed broadband speeds **in excess** of the State of California’s required 6 Mbps download speeds and 1 Mbps upload speeds to Residential and Business Customers in much of the primary proposed/application service areas.
2. Mediacom currently offers 1 Gbps download speeds and 50 Mbps upload speeds in 10 of the 21 census blocks in the proposed service areas based on the census block data Digital Path Inc. provided.
