Proposed Project Area Location:
Northeastern Shasta County

CASF Funding Requested: \$2,500,000.00

Project Type: Last Mile

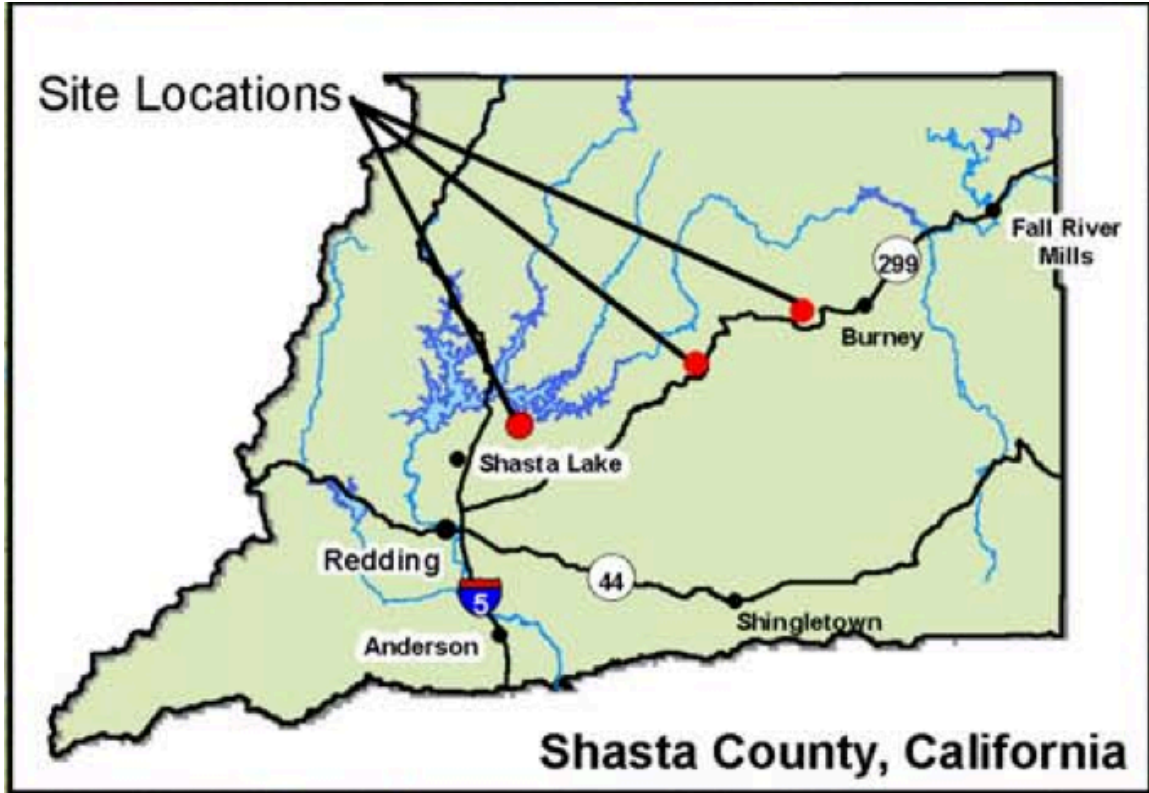

CASF Funding Request: Grant in the amount of

Description of Project:

Northeastern Shasta County currently contains 5,000 residents, of which 500 families are without telephone service. The purpose of this project is to provide fixed wireless Internet and telephone services to the unserved areas of northeastern Shasta County. Telephone service, including access to Internet connections, is increasingly necessary in today's society, and important for safety, emergency services, and education, as well as general communication. Construction of the proposed project would help fulfill the unmet need for communication service in northeastern Shasta County.

Map of service area:

The proposed project would include construction of towers and supporting facilities at three sites (Bear Mountain, Hatchet Mountain, and Round Mountain) within Shasta County.
