Public Advocates Office Testimony on the Proposed Restructuring of Frontier Communications: Impacts on Economic Benefits and Frontier's Financial Condition

- PUBLIC -

San Francisco, California September 30, 2020

### **MEMORANDUM**

- 2 This report was prepared by Bixia Ye of the Public Advocates Office at the California
- 3 Public Utilities Commission (Cal Advocates) under the general supervision of Program &
- 4 Project Supervisor, Raisa Ledesma Rodriguez. Attachment A to this testimony is a statement of
- 5 qualifications from Bixia Ye. Cal Advocates is represented in this proceeding by legal counsel,
- 6 Noel Obiora.

1

7 This testimony is comprised of the following chapters:

Chapter	Description
I	<b>Economic Benefits</b> : Analysis of Frontier's three business plans and Cal Advocates' recommendations on the capital investment target areas and amounts.
II	<b>Financial Condition</b> : Analysis of Frontier's financial payment obligations on the debt and potential benefit from the proposed Restructuring.

8

9

10

11

12

In preparing this testimony, Cal Advocates prioritized its analysis and recommendations given the schedule of the proceeding. The absence from this report of analysis or recommendations on any item contained within the Application and/or the proceeding's Scoping Ruling does not constitute acceptance or agreement of the information.

### 1 **SUMMARY**

2	On May 22, 2020, Frontier Communications Corporation, Frontier California Inc.,
3	Citizens Telecommunications Company of California Inc., Frontier Communications of the
4	Southwest Inc., Frontier Communications Online and Long Distance Inc., and Frontier
5	Communications of America, Inc. (collectively Frontier or Applicants) <sup>1</sup> filed Application (A.)
6	20-05-010 with the California Public Utilities Commission (Commission) on Frontier's corporate
7	restructuring (Application). The corporate restructuring would result in a change in the equity
8	ownership of Frontier and the elimination of Frontier Communications Corporation's unsecured
9	debt of \$10.949 billion as of December 31, 2019. <sup>2</sup> The creditors of the unsecured debt will
10	become shareholders after the restructuring. <sup>3</sup> As part of its Application, Frontier submitted a
11	Restructuring Support Agreement (RSA) executed on April 14, 2020 that has the support of
12	creditors holding more than 75% of the unsecured debt that the corporate restructuring would
13	eliminate. <sup>4</sup> Frontier also submitted a Joint Plan of Reorganization of Frontier Communications
14	Corporation and its Debtor Affiliates Pursuant to Chapter 11 of the Bankruptcy Code (Plan). $^{5}$
15	This testimony uses the term "Restructuring" to refer to the transactions Frontier proposes in the
16	RSA and the Plan. Pursuant to the RSA and the Plan, Frontier will be dissolved and replaced by
17	a new parent company (Reorganized Frontier). <sup>6</sup>
18	The August 5, 2020 Scoping Memo and Ruling of Assigned Commissioner (Scoping
19	Memo) states that the Application is subject to requirements outlined in California Public
20	Utilities Code (P.U. Code) Sections 853 and 854 and includes additional issues for review. This
21	testimony will address three of the issues in the Scoping Memo:
22	• Whether the Restructuring provides short-term and long-term economic benefits to
23	ratepayers (Section 854(b)(1)) (Scoping Memo Question 1).

 $<sup>\</sup>frac{1}{2}$  Frontier California Inc., Citizens Telecommunications Company of California Inc., Frontier Communications of the Southwest Inc., Frontier Communications Online and Long Distance Inc., and Frontier Communications of America, Inc. are Frontier's California subsidiaries.

<sup>&</sup>lt;sup>2</sup> Application, p.8, and Attachment B of this testimony.

 $<sup>\</sup>frac{3}{4}$  Application, pp.7-8.

<sup>&</sup>lt;sup>4</sup> Application, pp.1-2. The RSA was included in Frontier's Application as Exhibit B.

<sup>&</sup>lt;sup>5</sup> Application, Exhibit C. The Plan included in the Application was filed to United States Bankruptcy Court for the Southern District of New York (the Court) on May 15, 2020. The fifth amended Plan was filed to the Court on August 21, 2020.

 $<sup>\</sup>frac{6}{}$  Application, p.2.

1 • Whether the Restructuring maintains or improves Applicants' financial condition 2 (Section 854(c)(1)) (Scoping Memo Question 2). 3 • Whether the Restructuring is beneficial on an overall basis to state and local economies, 4 and to the communities in the area served by Applicants (Section 854(c)(6)) (Scoping 5 Memo Question 6). 6 Frontier makes several broad claims that the proposed Restructuring will bring benefits to 7 California customers, local and state economies and significantly enhance its financial condition. 8 However, these claims lack concrete support and California specific plans and commitments. 9 Frontier has a total of nearly **<<Begin Confidential>>** <<End Confidential>> California subscribers and provides various services, including voice and broadband services. 10 11 The Commission must ensure the proposed Restructuring will provide benefits to California 12 customers, local and state economies. The Commission should approve the Restructuring only if 13 the below conditions, in addition to the conditions proposed by Cal Advocates witnesses 14 Cameron Reed, Kristina Donnelly, and Tony Tully in their respective testimonies, are adopted: 15 1) Frontier should implement California specific Reinvestment Case or Alternative 16 Reinvestment Case plan that at minimum expands fiber deployment, and commit to 17 improving the scale, quality, and reliability of the backhaul services it provides to the wireless carriers. 18 19 2) To implement the Reinvestment Case or Alternative Reinvestment Case plan, Frontier 20 should deploy fiber to at least << **Begin Confidential>>** <<End Confidential>> 21 California copper locations with lower than 20% Internal Rate of Return (IRR) in 22 addition to Frontier's approximately << Begin Confidential>> <<End 23 Confidential>> California copper locations with above 20% IRR, in years 2021 through 24 2031. Additionally, Frontier should expand its broadband services to California's 25 unserved/underserved communities and increase rural broadband access to help bring Internet service to these communities. 26 27 3) Frontier should commit to capital expenditures of no less than a total of << Begin Confidential>> < End Confidential >> in California, over four years 28 29 from 2021 through 2024; << **Begin Confidential>>** << End Confidential>> 30 annually from 2021 through 2024. This amount excludes any winning bid from the 31 Federal Communications Commission Rural Digital Opportunity Fund (RDOF) but

- 1 includes the minimum \$322 million service quality investment over four years
- 2 recommended in the testimony of Cal Advocates' witness Cameron Reed.<sup>7</sup>

Cal Advocates Recommended Capital Expenditure in California from 2021 through 2024 8

		Amount (in Millions)
Line 1:	Minimum Service Quality expenditure in California from 2021 through 2024 (from the testimony of Cal Advocates witness Cameron Reed)	\$322
Line 2:	Minimum California specific capital expenditures level to implement Reinvestment Case Plan or Alternative Reinvestment Case Plan, excluding a winning bid from RDOF, from 2021 through 2024.	
Line 3:	Total minimum Fronter's capital expenditure in California from 2021 through 2024. (Line 1 + Line 2)	
Line 4:	Frontier's annual minimum capital expenditure in California (Line 3/4 years)

 $<sup>\</sup>frac{9}{2}$  Table 10 of this testimony.

#### 1 **I. CHAPTER I: ECONOMIC BENEFITS**

# A. Background

3	Frontier make several claims that the proposed Restructuring will provide benefits to			
4	California customers, local and state economies, and communities. However, Frontier does no			
5	provide California specific details or plans on how the economic and customer benefits will be			
6	realized. For example, Frontier's witness Mr. Nielsen states in his opening testimony:			
7 8 9 10	(1) The Plan will materially enhance the Applicants' corporate and operational stability, thereby allowing the California Operating Subsidiaries to continue and improve upon their provision of high-quality voice and broadband services. 10			
11 12 13 14 15	(2) This anticipated debt relief will position the California Operating Subsidiaries to be stronger operator and providers of competitive voice and broadband services, which will preserve more competitive options for consumers and enhance Frontier's ability to meet customers' forward-looking telecommunications needs. <sup>11</sup>			
16 17 18 19 20	(3) Frontier is committed to maintaining the California Operating Subsidiaries' networks and operations, directly benefiting state and local economies with competitive voice service and broadband-capable facilities over which customers derive greater social, economic, safety, and educational benefits. <sup>12</sup>			
21	Mr. Nielsen's three statements lack concrete, specific, and measurable plans and			
22	commitments to improve services in California. The Commission should require specific,			
23	enforceable, performance-based measures to ensure that the proposed Restructuring delivers			
24	benefits to California customers, local and state economies. This testimony makes specific			
25	recommendations on such requirements.			
26 27	B. Frontier Provides Voice and Broadband Services to California Customers.			
28	Frontier has approximately << Begin Confidential>> << End Confidential>>			
29	residential subscribers, and << Begin Confidential>> << End Confidential>>			

Opening Testimony of Mark D. Nielsen, p.18.
 Opening Testimony of Mark D. Nielsen, p.18.
 Opening Testimony of Mark D. Nielsen, p.26.

- 1 commercial subscribers in California as of December 2019. 13 In response to Cal Advocates' data
- 2 request, Frontier provided information on its total California subscribers by type of service.
- 3 Table 1 below shows Frontier's California subscribers by type of service including voice,
- 4 broadband, and TV services. The variance between the total residential and commercial
- 5 subscribers as of December 2019 reflected above and the total number of subscribers reflected in
- 6 Table 1 is due in part to customers subscribing to multiple types of services; in other words,
- 7 subscriber counts in Table 1 are not mutually exclusive to type of service.  $\frac{14}{1}$

Table 1: Frontier's California Average Subscribers in 2019 15

Subscriber Type	Residential	Commercial
Voice TDM

### C. Frontier's Base Case, Reinvestment, and Alternative Reinvestment Case Plan

To assess the impact of the proposed Restructuring on California's customers and economies, Cal Advocates analyzed Frontier's capital investments illustrated in Frontier's three different business plans: Base Case plan, Reinvestment Case plan and Alternative Reinvestment Case plan. The three plans illustrate Frontier and its subsidiaries (collectively "the Company")

<sup>13</sup> Frontier's response to Cal Advocates' requests in Data Request (DR)-04 Question (Q).1.

<sup>14</sup> Frontier's response to Cal Advocates' requests in DR-01 O.2.

 $<sup>\</sup>frac{15}{2}$  Data provided in the table were provided in Frontier's response to Cal Advocates' requests in DR-01 Q.2.

- different potential investment paths after the proposed Restructuring. However, the plans are
- 2 nationwide and not California specific. Frontier presents the three plans' financial projections in
- 3 Exhibit E Financial Projections to the Disclosure Statement Relating to the Joint Plan of
- 4 Reorganization of Frontier Communications Corporation and its Debtor Affiliates Pursuant to
- 5 Chapter 11 of the Bankruptcy Code (Disclosure Statement). 16

### 1. Base Case Plan

16

17

18

19

20

21

22

The Base Case plan contains financial projections that account for two major developments. One is the impact of the COVID-19 pandemic on Frontier's finances, and the second one is information on the Company's major wholesale customers obtained through ongoing negotiations. <sup>17</sup>

The Company's capital investment reflected in the financial projections for the Base Case plan is limited to approved or existing capital projects outside the Restructuring. For example, Frontier states it "is working on a limited trial deployment of new [Fiber to the Home] FTTH homes passed in 2020", and "continues to work with major wholesale customers on existing commercial arrangements, including expanding ethernet services, modernizing the fiber to the tower deployments, and participating in small cell" <sup>18</sup>/<sub>18</sub> However, the Base Case plan does not include descriptions of new broadband deployment in California post Restructuring. Therefore, the Base Case plan cannot support the claims by Mr. Nielsen that, the proposed Restructuring will have significant short-term and long-term economic benefits to California customers, will significantly enhance Frontier's operational stability, and will position the California subsidiaries to be stronger operators and providers of voice and broadband services to their existing customers. <sup>19</sup>/<sub>19</sub> The Base Case plan does not account for the Restructuring.

<sup>&</sup>lt;sup>16</sup> Notice of Filing of Exhibits D, E, and F to the Disclosure Statement Relating to the Joint Plan of Reorganization of Frontier Communications Corporation and its Debtor Affiliates Pursuant to Chapter 11 of the Bankruptcy Code [Docket No. 524], pp.17-33.

<sup>&</sup>lt;sup>18</sup> Slide 6 of Frontier's Disclosure Statement Supplemental Presentation provided in response to Cal Advocates' DR-02 Q.15 (Exhibit B-1 of this testimony).

<sup>&</sup>lt;sup>19</sup> Application, p.16, and Opening Testimony of Mark D. Nielsen, p.18.

### 2. Reinvestment Case Plan and Alternative Reinvestment Case Plan

2 The Company's two other plans, the Reinvestment Case and Alternative Reinvestment

- 3 Case plans, illustrate different capital investment opportunities after the proposed Restructuring.
- 4 However, the two plans are nationwide and not California specific. Compared with the Base
- 5 Case plan, both plans provide additional capital investment information in four key areas but at
- 6 varying priorities. The four key areas are (1) Brownfield Overbuild, (2) Tower/Small Cell, (3)
- 7 Rural Digital Opportunity Fund (RDOF), and (4) Future Densification/Edge Out. 20

8 Based on information provided by Frontier, the capital investments in the two key areas

- 9 of Brownfield Overbuild and Future Densification/Edge Out, are to selectively deploy new
- FTTH or upgrade the selected copper areas to provide fiber services. $\frac{21}{2}$  The selected areas to
- deploy fiber infrastructure or upgrade tend to be areas where capital investment would bring the
- highest Internal Rate of Return  $(IRR)^{22}$  to the Company. 23 In general, the higher the IRR, the
- more returns the investment will make.

1

15

Cal Advocates analyzed Frontier's capital investment opportunities in Brownfield

- Overbuild areas based on Frontier's Brownfield Model. 24 In this model, Frontier performed an
- investment opportunities analysis by grouping all the Company's current nationwide copper
- locations according to the estimated IRR and the average cost per location.  $\frac{25}{100}$  The investment in
- Brownfield areas to upgrade copper areas to fiber services is over multiple years, from 2021
- through 2031. The model shows that Frontier would consider capital investment in locations
- where the IRR is above 20%, then based on cash availability in future years, Frontier plans to

<sup>&</sup>lt;sup>20</sup> Notice of Filing of Exhibits D, E, and F to the Disclosure Statement Relating to the Joint Plan of Reorganization of Frontier Communications Corporation and its Debtor Affiliates Pursuant to Chapter 11 of the Bankruptcy Code [Docket No. 524], p.25.

<sup>&</sup>lt;sup>21</sup> Notice of Filing of Exhibits D, E, and F to the Disclosure Statement Relating to the Joint Plan of Reorganization of Frontier Communications Corporation and its Debtor Affiliates Pursuant to Chapter 11 of the Bankruptcy Code [Docket No. 524], p.25, and Slide 13 of Frontier's Disclosure Statement Supplemental Presentation provided in response to Cal Advocates' DR-02 Q.15 (Exhibit B-1 of this testimony).

 $<sup>\</sup>frac{22}{1}$  IRR is the expected annual growth rate of an investment and is useful in analyzing potential capital investments.

<sup>&</sup>lt;sup>23</sup> Slide 13 of Frontier's Disclosure Statement Supplemental Presentation provided in response to Cal Advocates' DR-02 Q.15 (Exhibit B-1 of this testimony).

<sup>&</sup>lt;sup>24</sup> Frontier's response to Cal Advocates' request in DR-02 Q.15(d), Network Modernization Plan Update – RSA Deliverable (Exhibit B-2 of this testimony).

<sup>25</sup> Frontier's response to Cal Advocates' request in DR-02 Q.15(d), Network Modernization Plan Update – RSA Deliverable, pp.59-67 (Exhibit B-2 of this testimony).

- 1 consider locations where the IRR is less than 20%. 26 Based on Frontier's Brownfield Model
- 2 overview and Cal Advocates data requests, Table 2 below shows the comparison of the number
- 3 of California locations in Frontier's California service territory and Frontier nationwide locations
- 4 by IRR range in Frontier's California service territory.

5

6

Table 2 above shows that, Frontier nationwide has << Begin Confidential>>

<< End Confidential>> locations with existing fiber and copper

 $<sup>\</sup>frac{26}{2}$  Frontier's response to Cal Advocates' request in DR-02 Q.15(d), Network Modernization Plan Update – RSA Deliverable, p.13 (Exhibit B-2 of this testimony).

<sup>27</sup> Data provided in the table were provided in Frontier's response to Cal Advocates' request in DR-02 Q.15(d), Network Modernization Plan Update – RSA Deliverable, p.64 (Exhibit B-2 of this testimony).

1	services, respectively. Nationwide, << Begin Confidential>>
2	<< End Confidential>> locations with existing copper services meet the above 20% IRR. In
3	California, Frontier has << Begin Confidential>> << End
4	Confidential>> locations with existing fiber and copper services, respectively. Specifically on
5	California's << Begin Confidential> << End Confidential>> locations with
6	existing copper services, only approximately << Begin Confidential> << End
7	<b>Confidential&gt;&gt;</b> locations are projected to meet the above 20% IRR. <sup>28</sup> This analysis shows that if
8	Frontier implements the Reinvestment Case or Alternative Reinvestment Case plans and invest
9	in the Brownfield Overbuild area to upgrade the existing copper to fiber service, Frontier will
10	only prioritize the fiber deployment in approximately << Begin Confidential>>
11	<< End Confidential>> in California.
12	In addition, from the percentages shown in the Table 2 above, the number of existing
13	copper locations in California is << Begin Confidential>>
14	<< End Confidential>>. However,
15	the approximately <b>&lt;<begin confidential="">&gt;</begin></b>
16	projected to meet above 20% IRR in California is only << Begin Confidential>>
17	<< End Confidential>> locations projected to meet above 20% IRR in Frontier
18	nationwide. Of existing copper locations meeting the above 20% IRR criteria, Frontier
19	nationwide (excluding California) shows << Begin Confidential>>
20	< <end confidential="">&gt;.</end>
21	Frontier's number of California fiber deployment locations to copper locations should be
22	proportionate to the company's nationwide deployment; not lower. The Commission should
23	require Frontier to deploy fiber to at least << Begin Confidential>>
24	<< End Confidential>> California copper locations with
25	lower than 20% IRR in addition to Frontier's approximately << Begin Confidential>>
26	<< End Confidential>> California copper locations with above 20% IRR, in years 2021 through
27	2031.

<sup>28</sup> Frontier's response to Cal Advocates' request in DR-02 Q.15(d), Network Modernization Plan Update – RSA Deliverable, p.64 (Exhibit B-2 of this testimony).

1	Compared to the capital investments in Brownfield Overbuild area, the capital
2	investments in Future Densification/Edge Out areas select more areas to expand FTTH to attract
3	new customers and to explore other commercial and wholesale programs with high return. <sup>29</sup> If
4	Frontier adopts Cal Advocates' recommendation to commit capital investments in Brownfield
5	Overbuild and Future Densification/Edge Out areas as it described and apply specifically to
6	California, more California customers, at least the number of customers in approximately
7	<< Begin Confidential>>, can have fiber service.
8	Regarding the Tower/Small Cell areas, the capital investments in this key area aims to
9	meet wireless carriers' increased traffic and backhaul demands, and to facilitate deals with key
10	wholesale customers and retain key one-net sites and customers. 30 The build opportunities on
11	small cell and fiber-to-the-tower (FTTT) will depend on Frontier's relationship with the wireless
12	carriers, and << Begin Confidential >>
13	<< End Confidential>>. However, since Frontier's capital investments in
14	backhaul projects in California will help mobile carriers provide better service to California
15	customers, Frontier should engage in good faith negotiations with wireless carriers and commit
16	to improving the scale, quality and reliability of the backhaul services it provides to the wireless
17	carriers.
18	The Federal Communication Commission (FCC) established RDOF, one of Frontier's
19	four key areas mentioned in its reinvestment business plans, to provide up to \$20.4 billion 10-
20	year support of the broadband networks deployment in rural area to bring Internet service to rural

communities. 32 Frontier will participate in the RDOF Phase I auction in October 2020. If

Frontier wins the Phase I auction, Frontier must fulfill the FCC's broadband deployment

Compared to the Base Case plan, the Reinvestment Case and Alternative Reinvestment

Use plans provide nationwide descriptions on Frontier's capital investments to improve network

5 infrastructure and broadband deployment post Restructuring but not California specific plans.

6 Frontier should identify and commit to California specific capital investments in the Brownfield

Overbuild, Tower/Small Cell, and Future Densification/Edge Out areas.

### D. Frontier Should Commit to California Specific Capital Investments Level to Implement Reinvestment Case Plan or Alternative Reinvestment Case Plan

Both the Reinvestment Case and Alternative Reinvestment Case plans provide capital investment information in four key areas, Brownfield Overbuild, Tower/Small Cell, RDOF, and Future Densification/Edge Out, but at varying priorities.

Frontier's capital investment in Brownfield Overbuild, Tower/Small Cell, and Future Densification/Edge Out areas should be California specific and measurable. Frontier defined its capital expenditures in its Disclosure Statement stating that, "[c]apital expenditures includes customer upgrades, customer additions, network expansion and upgrades, network and other maintenance, and technology spend." <sup>34</sup> Cal Advocates compiled Frontier's nationwide capital expenditures from its public financial report and Exhibit E – Financial Projections to the Disclosure Statement and created Tables 3 and 4 below to show Frontier's nationwide historical and projected capital expenditures from 2017 through 2019 and from 2021 through 2024, respectively. The capital expenditures were reported as "Additions to PP&E (Property, Plant and Equipment)" in the projected Statement of Cash Flows in the Exhibit E – Financial Projections to the Disclosure Statement. <sup>35</sup>

 $\frac{33}{1}$  FCC 20-5, paragraphs #5 and 9.

<sup>&</sup>lt;sup>34</sup> Notice of Filing of Exhibits D, E, and F to the Disclosure Statement Relating to the Joint Plan of Reorganization of Frontier Communications Corporation and its Debtor Affiliates Pursuant to Chapter 11 of the Bankruptcy Code [Docket No. 524], p.20.

<sup>&</sup>lt;sup>35</sup> Notice of Filing of Exhibits D, E, and F to the Disclosure Statement Relating to the Joint Plan of Reorganization of Frontier Communications Corporation and its Debtor Affiliates Pursuant to Chapter 11 of the Bankruptcy Code [Docket No. 524], pp 20, 26, and 30. Frontier did not define PP&E in these exhibits; in general, PP&E stands for Property, Plant and Equipment in the financial statements.

8

According to the comparison of the three business plans, the Base Case plan is limited to

already approved or existing capital projects without further commitments of broadband

<sup>&</sup>lt;sup>36</sup> Data provided in the table were based on the Consolidated Statements of Cash Flows for The Years Ended December 31, 2019, 2018 and 2017 in Frontier Communication Corporation Form 10-K for the fiscal year ended December 31, 2019, p.F-8.

 $<sup>\</sup>frac{37}{2}$  Data provided in the table were based on Exhibit E – Financial Projections to the Disclosure Statement.

<sup>&</sup>lt;sup>38</sup> Data provided in the table were provided in Frontier's response to Cal Advocates' requests in DR-04 Q.3.

<sup>&</sup>lt;sup>39</sup> Data provided in the table were provided in Frontier's response to Cal Advocates' requests in DR-02 Q.6 (b).

- deployment expansions. The capital expenditures projected for this plan should be a minimum, a
- 2 floor. Frontier's claims that the proposed Restructuring will significantly provide economic
- 3 benefit to California will require Frontier to commit to implement the Reinvestment Case or
- 4 Alternative Reinvestment Case plans. Compared with the Base Case plan, both Reinvestment
- 5 Case and Alternative Reinvestment Case plans provide additional capital investment information
- 6 in four key areas, Brownfield Overbuild, Tower/Small Cell, RDOF, and Future
- 7 Densification/Edge Out, but at varying priorities.
- 8 Therefore, the minimum capital expenditures in California should be the amount of the
- 9 capital expenditure projected for Base Case plan together with the Commission's minimum
- 10 requirement of the capital expenditures within the four key areas. Because RDOF will be
- overseen by FCC, Frontier has high uncertainty in the investment in small cell and FTTT
- reinvestment opportunities, and the capital investments in Future Densification/Edge Out area
- are to select more areas to expand FTTH when compared with the capital investment in
- 14 Brownfield Overbuild area, Cal Advocates emphasizes its recommended minimum capital
- investment in Brownfield Overbuild area.
- Specifically and as noted above for the capital investment in Brownfield Overbuild, the
- 17 Commission should require Frontier to deploy fiber to at least << Begin Confidential>>
- 18 << End Confidential>> California copper locations with lower than 20% IRR in addition to
- 19 Frontier's approximately << Begin Confidential>> << End Confidential>> California
- copper locations with above 20% IRR, in years 2021 through 2031. Based on Frontier's
- 21 projected average capital expenditure per location for different IRR bands and the distribution of
- <</pre>
- 23 California, Cal Advocates prepared Table 7 below to project the total capital expenditure in these
- recommended locations from 2021 through 2031.

- E. Frontier Should Expand Its Broadband Services to Unserved/Underserved Communities in California and Increase Rural Broadband Access to Help Bring Internet Services to those Communities.
- To understand Frontier's broadband download speeds in rural and urban areas in its
  California service territories, 44 Cal Advocates compared the maximum broadband download
  speeds available in the census blocks located in Frontier's service territory. 45 Cal Advocates used
  the number of households in each census block reported by the U.S. Census Bureau 2010
- 10 household information.46

census-blocks.html

\_

<sup>&</sup>lt;sup>43</sup> The data for 2016 through 2019 were same as Table 5 in this testimony, which were provided in Frontier's response to Cal Advocates' requests in DR-04 Q.3. The data for 2020 was provided in Frontier's response to Cal Advocates' requests in DR-02 Q.6 (b). The data for 2021 through 2024 were Cal Advocates calculated and recommended in Table 9 of this testimony.

<sup>44</sup> United States (U.S.) Census Bureau defines that, "[t]o qualify as an urban area, the territory identified according to criteria must encompass at least 2,500 people, at least 1,500 of which reside outside institutional group quarters.... 'Rural' encompasses all population, housing, and territory not included within an urban area." <a href="https://www.census.gov/programs-surveys/geography/guidance/geo-areas/urban-rural/2010-urban-rural.html">https://www.census.gov/programs-surveys/geography/guidance/geo-areas/urban-rural/2010-urban-rural.html</a>
45 Census blocks are Statistical areas bounded by visible features such as roads, streams, and railroad tracks, and by nonvisible boundaries such as property lines, city, township, school district, county limits and short line-of-sight extensions of roads. They are the smallest level of geography you can get basic demographic data for, such as total population by age, sex, and race. <a href="https://www.census.gov/newsroom/blogs/random-samplings/2011/07/what-are-">https://www.census.gov/newsroom/blogs/random-samplings/2011/07/what-are-</a>

<sup>46</sup> U.S. Census Bureau conducted the household number count every ten years ending in zero. The 2020 survey result is not available as of the date of this testimony. <a href="https://www.census.gov/programs-surveys/decennial-census.html">https://www.census.gov/programs-surveys/decennial-census.html</a>

- 1 Frontier provided Cal Advocates its FCC Form 477 broadband availability information;
- data as of December 31, 2019. 47,48 Cal Advocates incorporated the 2010 household information 2
- provided by the U.S. Census Bureau per census block for all census blocks listed identified in 3
- Frontier's FCC Form 477. 49 The result shows that Frontier's service territory has an estimated 4
- 3,213,667 households, about 23% of the total 13,680,081 households in California. Among the 5
- 6 3,213,667 households, 5% are in rural areas. Table 11 below estimates the percent of households
- 7 with broadband availability from Frontier between rural and urban areas in California.

Table 11: Percentage of Households in Rural and Urban Areas with Broadband Availability in Frontier's Service Territory 50

	Number of Household (HH)	% of HH to Total	% of HH with <6 Mbps	% of HH with <10 Mbps	% of HH with <25 Mbps	% of Population with NO Fiber
Rural	175,435	5%	13%	25%	50%	87%
Urban	3,038,232	95%	7%	16%	34%	42%
Total	3,213,667	100%	7%	17%	35%	44%

8

11

9 Table 11 above shows that rural and urban areas have different broadband download

speeds service available to customers. In 2019, the FCC retained the speed benchmark of 25 10

- Mbps download and 3 Mbps upload for fixed broadband services.<sup>51</sup> While the total households in
- 12 rural areas comprised only 5% of the total households in Frontier's California service area, those
- 13 with broadband download speeds lower than 25 Mbps were about 50%, compared to 34% of
- 14 households in urban areas. In addition, fiber service is more limited in rural areas with 87% of
- 15 the households in rural areas not having fiber services, compared to 42% of households in urban
- 16 areas.

<sup>47</sup> FCC Form 477 Instruction. This Form "collects information about broadband connections to end-user locations, wired and wireless local telephone services, and interconnected Voice over Internet Protocol (VoIP) services in the 50 states, the District of Columbia, and the Territories and possessions (see 47 U.S.C. § 153(58)). Data obtained from this form will be used to describe the deployment of broadband infrastructure and competition to provide local telecommunications services." <a href="https://us-fcc.app.box.com/v/Form477Instructions">https://us-fcc.app.box.com/v/Form477Instructions</a>

<sup>48</sup> The submission was in partial compliance with the Settlement Conditions #8 (see page 9 of Exhibit 1 of Appendix F in D.15-12-005.)

<sup>49</sup> https://www.census.gov/geographies/mapping-files/time-series/geo/tiger-line-file.2010.html

<sup>50</sup> Cal Advocates created this table by using the Applicants provided FCC Form 477 for its broadband deployment as of December 31, 2019 to Cal Advocates on March 3, 2020 and incorporating the 2010 household information provided by U.S. Census Bureau.

<sup>&</sup>lt;sup>51</sup> Paragraph #12 of FCC's 2019 Broadband Deployment Report https://docs.fcc.gov/public/attachments/FCC-19-44A1.pdf

1	As mentioned in Section C (2) Reinvestment Case Plan and Alternative Reinvestment
2	Case Plan of this testimony above, Frontier will prioritize build out of fiber to existing copper
3	locations where the IRR is above 20%. This equates to a total of approximately << Begin
4	Confidential>> << End Confidential>> locations in California. However, << Begin
5	Confidential>>
6	<< End Confidential>>. If solely based on the 20% IRR
7	threshold to determine fiber infrastructure deployment, California's rural areas lacking faster
8	Internet service will continue to be disadvantaged. To benefit California customers, local and
9	state economies, and communities, Frontier should commit to expanding its broadband
10	deployment to unserved and underserved communities in rural areas. Frontier should further
11	commit to increasing download speeds to provide the minimum FCC broadband speed
12	benchmark of 25 Mbps download and 3 Mbps upload for fixed broadband services, while
13	continuing to pursue a minimum broadband speed goal of 100 Mbps download, as established
14	Governor Gavin Newsom's Executive Order N-73-20.53
15	F. Conclusion
16	Frontier provides multiple types of voice and broadband services to nearly [Begin
17	Confidential] [End Confidential] California subscribers. It is critical that Frontier
18	commits to increase capital investments in California, committing to network upgrades,
19	improving their service quality to provide benefits to California customers. Frontier's Base Case
20	plan is limited to approved or existing projects without further description of broadband
21	deployment expansions post Restructuring, while the Reinvestment Case and Alternative
22	Reinvestment Case plans include more broadband deployment descriptions. Frontier should
23	commit to California specific capital investments in its Reinvestment Case or Alternative
24	Reinvestment plans and commit the capital investment in the Brownfield Overbuild and Future
25	Densification/Edge Out areas described in these two plans.
26	To implement the Reinvestment Case or Alternative Reinvestment Case plan, the
27	Commission should require Frontier to deploy fiber to at least << Begin Confidential>>

 <sup>52</sup> Frontier's response to Cal Advocates' request in DR-02 Q.15(d), Network Modernization Plan Update – RSA Deliverable, p.65 (Exhibit B-2 of this testimony).
 53 Executive Order N-73-20, Ordering Paragraph #1. This order was signed on August 14, 2020.

1	< <b>End Confidential&gt;&gt;</b> California copper locations with lower than 20% IRR in addition to
2	Frontier's approximately <b>&lt;<begin confidential="">&gt;</begin></b> California
3	copper locations with above 20% IRR, in years 2021 through 2031 (noted that these figures have
4	been rounded).
5	In addition, since Frontier's capital investments in backhaul projects in California will
6	help mobile carriers provide better service to California customers, Frontier should engage in
7	good faith negotiations with wireless carriers and commit to improving the scale, quality and
8	reliability of the backhaul services it provides to the wireless carriers.
9	To ensure the implementation of capital investment in the Brownfield Overbuild and
10	Future Densification/Edge Out areas, Frontier should commit to no less than << Begin
11	<b>Confidential&gt;&gt;</b> < <b>End Confidential&gt;&gt;</b> capital expenditures in California from
12	2021 through 2024; << Begin Confidential>> << End Confidential>> annually
13	from 2021 through 2024. This amount excludes a winning bid from RDOF and includes the
14	minimum \$322 million service quality investment over the next four years recommended by Cal
15	Advocates witness Cameron Reed. <sup>54</sup>
16	In addition, Frontier should commit to expanding its broadband deployment to unserved
17	and underserved communities in rural areas. Frontier should further commit to increasing
18	download speeds to provide the minimum FCC broadband speed benchmark of 25 Mbps
19	download and 3 Mbps upload for fixed broadband services, while continuing to pursue a
20	minimum broadband speed goal of 100 Mbps download established in Governor Gavin
21	Newsom's Executive Order N-73-20.
22	

II. CHAPTER II: FINANCIAL CONDITION

### A. Background

23

24

25

26

Frontier's witness, Mr. Nielsen's opening testimony includes several claims that the proposed Restructuring will materially improve Frontier's California subsidiaries' financial

<sup>&</sup>lt;sup>54</sup> Public Advocates Office Testimony on the Proposed Restructuring of Frontier Communications: Impacts on Frontier's Service Quality and 9-1-1 Network. (Cal Advocates Testimony of Cameron Reed) at pp. 7, 18 and 31.

1 condition. Frontier claims that the Plan will reduce Frontier's debt by over \$10 billion and

would result in approximate annual savings of \$1 billion from interest payments. Frontier also

3 claims that improvements to its balance sheet  $\frac{55}{2}$  will lead Frontier to improve access to capital

and enhance its California subsidiaries' abilities to more effectively compete in a dynamic

telecommunications marketplace and better serve the needs of existing and new customers

6 throughout its service territories.  $\frac{56}{}$ 

Frontier Communication Corporation's Form 10-K<sup>57,58</sup> for fiscal year ending December 31, 2019 reported a total Principal Outstanding amount of \$10.949 billion for unsecured debt issued by Frontier Communication Corporation (refer to Attachment B). These are the unsecured debt the proposed Restructuring would eliminate. The creditors of this unsecured debt will become the new owners of Frontier and its subsidiaries after the Restructuring. Frontier provided the Company's current and new structures in its Application:

13

2

4

- 2 California subsidiaries post Restructuring to support Frontier's California subsidiaries' business
- 3 operations.

4

5

6

### B. Frontier's California Subsidiaries Should Not be Responsible for Any of Frontier and Reorganized Frontier's Debt Payment Obligations Due to The Restructuring

7 Cal Advocates reviewed Frontier's plan or significant change in its debt obligation. The 8 purpose of the review was to assess whether Frontier would shift any debt burden to its 9 California subsidiaries. Frontier Communication Corporation's Form 10-Q report for the 10 quarterly period ended June 30, 2020 (refer to Attachment C of this testimony), 63,64 plans to pay 11 off the remaining over \$6 billion long-term debt within the year of 2020. This raises a concern on 12 whether Frontier Communication Corporation or Reorganized Frontier has ability to pay off this 13 debt without shifting payment burden to Frontier's California subsidiaries. According to Frontier 14 Communication Corporation's Form 10-O, the Company's long-term debt was reported as zero 15 and \$6.446 billion was classified as "Long-term debt due within one year". The classification of 16 the \$6.446 billion in Form 10-Q is not consistent with the classification in the Balance Sheet 17 found in Exhibit E – Financial Projections to the Disclosure Statement, in which, Frontier projected over \$6.3 billion as Long-Term Debt, while another \$18 million is the "Current Portion 18 19 of Long Term Debt" from 2020 through 2024 under all three business plans. 65 The \$6.446 20 billion was classified as "Long-term debt due within one year" in its most recent Form 10-Q 21 shows a significant amount of cash outflow and pay debt burden in 2020. Compared to the reported amount of \$994 million under the account "Long-term debt due within one year" in 22 23 2019, 66 the \$6.446 billion pay debt obligation in 2020 is \$5.452 billion more than what Frontier 24 had to pay in 2019.

<sup>&</sup>lt;sup>63</sup> The Form 10-Q includes <u>unaudited</u> financial statements and provides a continuing view of the company's financial position during the year. The report must be filed for each of the first three fiscal quarters of the company's fiscal year. <a href="https://www.sec.gov/fast-answers/answers/answersform10qhtm.html">https://www.sec.gov/fast-answers/answers/answersform10qhtm.html</a>

 $<sup>\</sup>frac{64}{4}$  Frontier's Form 10-Q for the quarterly period ended June 30, 2020 was issued on August 7, 2020 and is the most recent public financial report Cal Advocates has.

<sup>&</sup>lt;sup>65</sup> Notice of Filing of Exhibits D, E, and F to the Disclosure Statement Relating to the Joint Plan of Reorganization of Frontier Communications Corporation and its Debtor Affiliates Pursuant to Chapter 11 of the Bankruptcy Code [Docket No. 524], pp 24, 29, and 33.

<sup>66</sup> Attachment C of this testimony.

Frontier's First Day Financing Presentation on April 16, 2020 shows three sources of financing to emerge from the Chapter 11 bankruptcy proceeding. 67 The first source of financing is Frontier's cash on hand of \$726.8 million of unrestricted cash available in ordinary course of business. The second source of financing is the debtor-in-possession (DIP) financing of \$460 million Revolving Credit Facility, and the third source of financing is \$1.352 billion in cash from Pacific Northwest Transaction in which Frontier entered into a definitive agreement on May 29, 2019 to sell its Pacific Northwest operations and associated assets in Washington, Oregon, Idaho, and Montana. The Disclosure Statement answered the question regarding the sources of cash and other consideration required to fund the Plan that, "The Debtors shall fund distributions under the Plan with: (i) Excess Cash, (ii) the New Common Stock, and (iii) the Takeback Debt or third-party market financing, as applicable." 68 However, Frontier did not provide specific amounts.

Cal Advocates estimates that Frontier will have approximately \$2.540 billion in total available cash to finance Frontier's Restructuring by adding the amounts from the three sources of financing mentioned above. The \$2.540 billion is by far not enough for the payment obligation of \$6.446 billion reported as "Long-term debt due within one year" on Frontier's Form 10-Q for the quarterly period ended June 30, 2020, let alone expenditures Frontier is incurring related to the Chapter 11 Bankruptcy filing.

To support Frontier's claims that the Restructuring will enhance Frontier's California subsidiaries' financial condition, Frontier's subsidiaries should not be responsible for paying Frontier's obligation due to the Restructuring. For example, if California subsidiaries will need to pay for a portion of the \$6.446 billion debt, they may have to transfer available cash to Reorganized Frontier or issue new debt that will increase liabilities and annual interest payments. Either the transfer of cash or issuance of new debt may negatively impact California customers by way of increased service prices or reduced California capital investment. While Frontier provided that currently, California subsidiaries do not have any plans to issue new debt or sell any assets or operations in California<sup>69</sup>, Frontier falls short in making such commitments.

<sup>67</sup> Frontier Communications Corporation. Chapter 11 Bankruptcy Proceeding at the United States Bankruptcy Code in the Southern District of New York, Case No. 20-22476. First Day Financing Presentation. April 16, 2020. Accessed on September 14, 2020. <a href="https://cases.primeclerk.com/FTR/Home-DocketInfo?DocAttribute=5609&DocAttrName=FIRSTDAYMOTIONS">https://cases.primeclerk.com/FTR/Home-DocketInfo?DocAttribute=5609&DocAttrName=FIRSTDAYMOTIONS</a>.

<sup>68</sup> The third amended Disclosure Statement filed to the Court on June 30, 2020, p.27.

<sup>&</sup>lt;sup>69</sup> Frontier's response to Cal Advocates' requests in DR-02 Q.4.

To ensure the Restructuring will improve the financial condition of Frontier's California subsidiaries, the Commission should require Frontier to commit that its California subsidiaries will not be responsible for any of Frontier and Reorganized Frontier's debt payment obligations due to the Restructuring.

### C. Reorganized Frontier Should Transfer Part of the Saved Cash from the Restructuring to Frontier's California Subsidiaries to Support California Investments.

Frontier claims that "by restructuring its balance sheet, Frontier's California Operating Subsidiaries will be better situated to improve the customer experience by making additional improvements in its operations and networks, including continuing to expand their broadband infrastructure. ..." 70 To support this claim, Frontier's California subsidiaries should not be responsible for Frontier and Reorganized Frontier's payment obligations due to the Restructuring, rather, Reorganized Frontier should transfer part of the benefits obtained from the Restructuring to Frontier's California subsidiaries to support California business operations after the Restructuring. The benefits transferred to Frontier's California subsidiaries can come from the saved annual interest payments, which is Frontier claimed over \$1 billion in its Application, and the saved annual debt payment obligations for the principal portion of the over \$10 billion of unsecured debt reduced by the Restructuring.

Based on the review of Fronter Communications Corporation's Form 10-K for years 2016 through 2019, Frontier paid for the principal payment of its unsecured debt each year. For example, Frontier paid \$2.198<sup>71</sup> billion and \$348<sup>72</sup> million for the principal payment of its unsecured debt in 2018 and 2019, respectively. Since the Restructuring would eliminate Frontier's unsecured debt, Frontier will save millions or even billions of cash payments on that debt annually. Utilizing 2019 information, which is the year Frontier paid less amount in principal compared to 2018, the proposed Restructuring can save Frontier at least \$1.348 billion, the sum of \$1 billion of saved interests and \$348 million for the principal portion, annually.

 $<sup>\</sup>frac{70}{2}$  Application, p.18.

<sup>71</sup> Frontier's 2018 Form 10-K, p.F-24 (Attachment B of the testimony).

<sup>72</sup> Frontier's 2019 Form 10-K, p.F-22 (Attachment B of the testimony).

- 1 If Reorganized Frontier transfers part of these cash savings to support Frontier's
- 2 California subsidiaries' business operations, that additional cash can be used to support
- 3 California's broadband deployment and capital investments. To project the proportion of the
- 4 benefit that California subsidiaries could obtain, Cal Advocates collected Frontier nationwide
- 5 revenue information from its public financial record and compared it with the revenue
- 6 specifically generated from California by using Frontier provided information in response to Cal
- 7 Advocates' data request. Table 12 below shows that Frontier generated operating revenues from
- 8 California consistently around over << **Begin Confidential>>** < **End Confidential>>** of
- 9 the Frontier nationwide revenue since 2017.

**Table 12: Comparison of Revenue from California to Revenue from Frontier Nationwide**(in Millions) 73

<sup>73</sup> The data for the California subsidiaries was provided by Frontier in its responses to Cal Advocates' DR-06 Q.3. The data for the Frontier and All Subsidiaries was from Frontier Communications Corporation Form 10-K for fiscal year of 2019 and Form 10-Q for the quarterly period ended March 31, 2020 and June 30, 2020.

1 than <b>&lt;<begin b="" confidential<=""></begin></b>	than -	an < <begin< th=""><th>Confid</th><th>ential&gt;</th></begin<>	Confid	ential>
---	--------	--	--------	---------

<< End Confidential>> of

- 2 the saved cash annually from the Restructuring to Frontier's California subsidiaries. This annual
- 3 amount can support Frontier's California capital expenditures and broadband infrastructure
- 4 deployment. Frontier and Reorganized Frontier must ensure that Frontier's California
- 5 subsidiaries have the financial sources to implement the Reinvestment Case or Alternative Reve
- 6 investment Case plans to support Frontier's claim that the Restructuring will enhance the
- 7 California subsidiaries' financial condition and provide benefits to California customers, local
- 8 and state economies.

### D. Conclusion

Frontier claims that the proposed Restructuring will significantly enhance its California

- subsidiaries' financial condition. To do such, Frontier must commit that its California
- subsidiaries should not be responsible for any debt due to the proposed Restructuring. In
- addition, the proposed Restructuring will eliminate Frontier's over \$10 billion debt, so Frontier
- will save not only the approximately \$1 billion of interest payment, but also can save at least
- 15 \$348 million for the principal portion of the over \$10 billion debt paid annually. Reorganized
- Frontier should commit to allocate at least << Begin Confidential>>
- 17 <**End Confidential>>** of the save cash to Frontier's California subsidiaries to support its
- 18 California capital expenditures and broadband infrastructure deployment.

19

9

### 20 III. RECOMMENDATIONS

- The Commission should approve the Restructuring only if the below conditions, in
- 22 addition to the conditions proposed by Cal Advocates witnesses Cameron Reed, Kristina
- 23 Donnelly, and Tony Tully in their respective testimonies, are adopted:
- 24 1) Frontier should implement California specific Reinvestment Case or Alternative
- Reinvestment Case plan that at minimum expands fiber deployment, and commit to
- 26 improving the scale, quality, and reliability of the backhaul services it provides to the
- wireless carriers.
- 28 2) To implement the Reinvestment Case or Alternative Reinvestment Case plan, Frontier
- should deploy fiber to at least << **Begin Confidential>>**

1	California copper locations with lower than 20% IRR in addition to Frontier's
2	approximately << Begin Confidential>> California
3	copper locations with above 20% IRR, in years 2021 through 2031. Additionally,
4	Frontier should expand its broadband services to California's unserved/underserved
5	communities and increase rural broadband access to help bring Internet service to these
6	communities.
7	3) Frontier should commit to the capital expenditure of no less than a total of <b>&lt;<begin< b=""></begin<></b>
8	<b>Confidential&gt;&gt;</b> in California, over four years
9	from 2021 through 2024; << Begin Confidential>>
10	annually from 2021 through 2024. This amount excludes any winning bid from RDOF
11	but includes the minimum \$322 million service quality investment over four years
12	recommended in the testimony of Cal Advocates' witness Cameron Reed. 74

### 1 Excerpt of 2018 Form 10-K

# FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES Notes to Consolidated Financial Statements

We also considered whether the carrying values of finite-lived intangible assets and property plant and equipment may not be recoverable or whether the carrying value of certain indefinite-lived intangible assets were impaired, noting no additional impairment was present as of December 31, 2018.

The components of other intangibles at December 31, 2018 and 2017 are as follows:

	2018							2017					
	(	Gross				Net		Gross	Net			Net	
	Carrying		Carrying Accumulat		lated Carrying		Carrying		Accumulated			Carrying	
(\$ in millions)	Amount		Amortization		Amount		Amount		Amortization		_	Amount	
Other Intangibles:													
Customer base	\$	5,188	\$	(3,848)	\$	1,340	\$	5,188	\$	(3,294)	\$	1,894	
Trade name		122		-		122		122		-		122	
Royalty agreement		72		(40)		32		72		(25)		47	
Total other intangibles	\$	5,382	\$	(3,888)	\$	1,494	\$	5,382	\$	(3,319)	\$	2,063	

Amortization expense was as follows:

	For the year ended December 31,								
(\$ in millions)	201	8	20	17	2016				
Americation expense	•	F00	¢	000	•	040			
Amortization expense	2	569	D.	699	D.	643			

Amortization expense primarily represents the amortization of our customer base acquired as a result of the CTF Acquisition, the Connecticut Acquisition and the acquisition of certain Verizon properties in 2010 with each based on a useful life of 8 to 12 years on an accelerated method. The approximate weighted average remaining life of our customer base is 5.29 years and for our royalty agreement is 2.25 years. Amortization expense based on our current estimate of useful lives, is estimated to be approximately \$454 million in 2019, \$354 million in 2020, \$260 million in 2021, \$173 million in 2022, and \$95 million in 2023.

For the year ended December 31, 2018

#### (8) Long-Term Debt:

The activity in our long-term debt from January 1, 2018 to December 31, 2018 is summarized as follows:

			Tor the year ended December 31, 2010						
(\$ in millions)	Janua	ary 1, 2018		ments and tirements		New Borrowings	Decem	ber 31, 2018	Interest Rate at December 31, 2018*
Secured debt issued by Frontier	\$	3.511	\$	(630)	\$	2,365	\$	5,246	6.76%
Unsecured debt issued by Frontier		13,495		(2,198)			•	11,297	9.56%
Secured debt issued by subsidiaries		107		-		-		107	8.35%
Unsecured debt issued by subsidiaries		750		-		-		750	6.90%
Total debt	\$	17,863	\$	(2,828)	\$	2,365	\$	17,400	8.59%
Less: Debt Issuance Costs Less: Debt Premium/(Discount) Less: Current Portion	\$	(183) (54) (656) 16,970					\$	(178) (50) (814) 16,358	

<sup>\*</sup> Interest rate includes amortization of debt issuance costs and debt premiums or discounts. The interest rates at December 31, 2018 represent a weighted average of multiple issuances.
