Oakland, Ca. 94612**

Dear Susan,

Here is an update on the status of our broadband offerings for eligible low-income customers.

Effective July 1, 2018, Frontier is offering the following products:

- **Frontier Affordable Broadband with a LifeLine requirement**
- **FCC Simply Broadband**
- **Frontier Fundamental Internet – new offering with no LifeLine requirement**

Frontier has chosen to offer the Frontier Affordable Broadband product through June 30, 2019. In addition, through June 30, 2019, Frontier intends to provide \$60 for any new adoption for customers who subscribe to: (i) Frontier Affordable Broadband service, (ii) Frontier Fundamental service, or (iii) another provider's low-income service in the Frontier footprint.

Finally, with respect to wi-fi capable devices, effective June 30, 2018, Frontier intends to provide a free device for new adoptions for Frontier customers subscribing to Frontier Affordable Broadband or Frontier Fundamental service, but will no longer provide a free device to customers of other providers.

We are encouraged by the positive response so far to the Frontier Fundamental offering, and we appreciate your collaboration as we move forward with these adoption initiatives.

Sincerely,

A handwritten signature in blue ink, appearing to read "Deborah Klava".
